CURRICULUM

Our school follows the CBSE curriculum as per the instructions we follow the NCERT books as prescribed by the CBSE. Our curriculum lays emphasis on the comprehensive and holistic development of the students, through learner-centred teaching methodology which is a shift from the traditional rote-learning. Thinking, Questioning and Reflecting are the key components of the curriculum. Today classrooms have become positive learning centres. The emphasis is on learning rather than teaching. We encourage learning through a broad and balanced curriculum, which lays stress on activities that emphasize exploration, problem-solving, active involvement, language development and a range of well-planned play opportunities. This helps the learners to develop out-of-the-box thinking.
